New Beginnings

Since the beginning of the year, rescues have been arriving in multiples. We had four come from a breeder in Georgia, three from an adopter that passed, and two more from an owner that passed. We will do what it takes to make sure they are healthy and ready for their forever homes. Stay tuned!

Happy Tails

Congratulations to Zack and Melanie who have found their forever homes and are now enjoying their second chance at life and love with their new families!

See's Yum-raiser

For the first time, SOCKS is selling yummy See's Candies (just in time for Easter) to raise funds for Foster Erica's TECA. Order today before the sale melts away!

Can You Help Save A Life?

SOCKS is a small rescue doing big things to save senior and special needs pups. It takes a village, a BIG village to do that. There are multiple ways for you to help. Please check the list below:

- Shop our Amazon or Chewy Wishlist for needed supplies to keep our dogs healthy and happy.
- [Shop Our Amazon Wishlist Here](#)
- [Shop Our Chewy Wishlist Here](#)
- Become a Monthly or Medical Sponsor for only \$10 per month. [Email Sue](#)
- Foster or adopt a dog in need. Complete an application [HERE](#)
- Donate [HERE](#) – one time or monthly
- Send a check made payable to SOCKS to:
1429 Players Club Circle, Gulf Breeze, FL
32563
- Have Save Our Cocker Spaniels listed as a beneficiary in your will.
- Make a gift in memoriam of a family member, valued friend, or pet.

Pet Poison Awareness

March is National Pet Poison Prevention Month. It's a great time to learn about the dangers of accidental pet poisonings and how to prevent them.

Do you know what the Number One dog poison is? It's over-the-counter medications such as Tylenol, Advil, Aleve as well as herbal and nutraceutical products. Foods with Xylitol, also known at Birch sugar (found in peanut butter and gum), grapes, raisins, onions, garlic, protein bars and of course chocolate. Dogs really like chocolate and may consume enough to cause serious issues. Keep that Easter candy put away!

Continued on Page 3

Check out the great organic coffee at Grounds & Hounds. A portion of every order is donated back to SOCKS for our medical fund when you use our special link. Use the Discount Code: SOCKS and you will receive at 15% discount. Shop and order [here](#).

Mickey Graduated!

Foster Mickey passed his beginning training. Ms. Bebe, his trainer, said he was perfect. He has learned to sit quietly when in a room with other dogs and people, as long as they stay five feet away. Otherwise, he may growl at them. His foster mom signed him up for the intermediate class. Mickey is very food motivated. He will do well.

Let's Go Shopping!

Did you miss out on one of our T-shirt campaigns? Or maybe you need additional shirts. The SOCKS Online Store is your answer. You can order shirts from our past campaigns as well as mugs, hats, totes and more. Shop and Order [HERE](#).

SOCKS
Rescuing seniors & special needs Cockers since 2017

The store displays several items:
Top row: A maroon t-shirt with a white Cocker Spaniel graphic, a light blue long-sleeved shirt with a similar graphic, and a white and grey baseball-style shirt with a graphic.
Bottom row: A dark purple tote bag with a white Cocker Spaniel graphic, a white mug with a black Cocker Spaniel graphic and a red handle, and a tan tote bag with a white Cocker Spaniel graphic.

Pet Poison Awareness Cont.

What are the symptoms of poisons caused by swallowing? Symptoms include vomiting, diarrhea, agitation and heart issues. If toxins have been inhaled, your dog may have breathing difficulties or loss of consciousness. Symptoms from skin contact include irritation and pain.

Should you suspect your pet of being poisoned, keep them calm and contact a veterinary professional immediately. If you cannot reach a veterinary professional, you can call the ASPCA 24/7 Poison Control Hotline at **888-426-4435** or the Pet Poison Helpline at **855-764-7661**. Fees may apply for the services, but are well worth it.

For more information, Google Pet Poison Prevention Month.

YMMIES FOR THE TUMMIES

Fruit Ice Cream

1 Yogurt (Lactose-free or veggie)
1 Banana
1/4 Cup Strawberries
1/4 Cup Blueberries

- Blend all ingredients in a blender
- Gently fill a silicone tray with mixture
- Place tray in freezer for 2-3 hours
- Before giving them to your dog, keep them for a few minutes out of the freezer so they get the best flavor and texture.
